The End Of The Fucking World Amazon de Charles Forsman

It's definitely one of my favorite comics this year and I read a lot of graphic novels. I do think the price could be a touch lower. This seems like a \$10 book at most considering its fairly short and totally in black and white. Still, there's a lot of mediocrity out there and "the end of the f\$?!@ing world" definitely rises out of the pack to be something different.
