Current mainstream opinion in psychology, neuroscience, and philosophy of mind holds that all aspects of human mind and consciousness are generated by physical processes occurring in brains. The present volume demonstrates empirically that this reductive materialism is not only incomplete but false. The authors systematically marshal evidence for a variety of psychological phenomena that are

Thoughts and Things Free eBooks Download

Thoughts and Things posits what would appear to be an irreducible gap between our thoughts (the human subject) and things (the world). Bersani departs from his psychoanalytic convictions to speculate on the oneness of being?of our intrinsic connectedness to the other that is at once external and internal to us. He addresses the problem of formulating ways to consider the undivided mind
