The Poison Apple series is a hit, but if this book is any indication part of its appeal is that it's about contemporary kids doing genuinely bad things.

The Apothecary's Poison on Apple Books

I read lots of bookslotsand many of those are mysteries so it's hard for me to find ones that are unique. The combination of mysteries to solve, a bit of magic, and a smidgen of romance are so well combined in these novels. The plots are well thought out, the characters are interesting and the magic gives everything a special twist. I've pre-ordered the fourth one with anticipation. Thanks for these good reads and for offering them at a reasonable price.

The girls decide to form a group/club called The Poison Apples, where they hash out ideas on how to take down these evil stepmothers. This book had its cute points but the plot wasn't all that. The stepmothers, as a whole, didn't seem THAT evil, though there were a few moments here and there of catty remarks & manipulation from the stepmothers to the stepdaughters that made me think okay, that was a little mean.
